## Highlights

---

- Saves the man power required to manage the student records and accounting
- Significantly reduces the effort and time in updating daily attendance, fee collection, fee receipts printing, various student certificates etc.,
- Improves accounting visibility by aggregating and summarizing the fee collection over the period and for various fee headers
- Provides effective means of communication via SMS for various alerts and notices
- Keeps track of all the information updated and added, gives insight into data stored
- Gives restrictive access to critical and sensitive data by permission based access
- Managing the Exams, Marks and Results announcements is now an easy task
- Visual representation of Attendance registry and Fee Collection summary helps in quick understanding
- Regulatory requirement to print the attendance monthly summary for the class is provided to be compliant
- Exporting data to excel is provided for further analysis and to import in other systems
- Dashboard gives quick view of the school info, attendance summary for the day, birthday's list, absentees list, overall students and employees count
- Parents can easily access the student profile with attendance details and exam results. See history of fee payments, sms messages and check for Fee dues, if any.
- Share school event photos with parents and keep them updated.
- Permission based secure access to all the data in the system and is secured over the web using SSL security
